Subject: California Division of Oil, Gas and Geothermal Primacy documents (3).
Michele, this is the first installment of some of the relevant documents for CA DOGG primacy:

1. Letter from M. G. Mefferd (State Oil & Gas Supervisor) to Mr. Nathan Lau responding to additional information (dated stamped 03/31/82). Focus on attachment #2
2. Letter from Deputy Attorney General to Mr. Richard E. Reavis (Region IX). Note attachment # 2 "Exempted 1425 Demonstration Aquifers." (date stamped 12/06/82)
3. Action Memo AA recommendation for primacy approval to EPA Administrator.

There will be additional documents depending on our discussion with HQ management. If these document don't get through let me know as MS Outlook has a limit on size.
